云南省高校机构知识库建设的三个层面：

Three aspects of the construction of the university institutional repository in Yunnan Province:

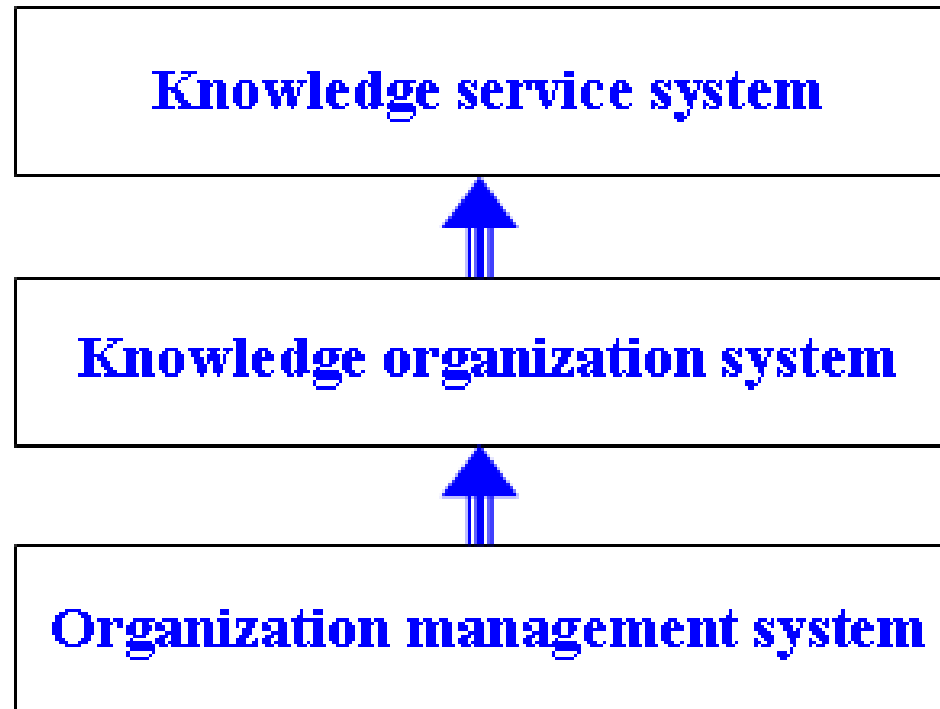

- 个体机构知识库
- 全省机构知识库联盟
- 跨境机构知识库联盟
- Individual institutional repository
- Institutional repository alliance across the province
- Institutional repository alliance crossing border

个体机构知识库建设框架

Framework for the establishment of individual institutional

Organization management system

System guarantee

- Voluntary deposit policy
- Open access charter
- Copyright management standard
- Achievement evaluation index
- Privacy disclaimer
- Network communication exemption
- Complaints cancellation agreement
- Rights management rule
- Service regulation

Management mechanism

- Business management
- Strategic management

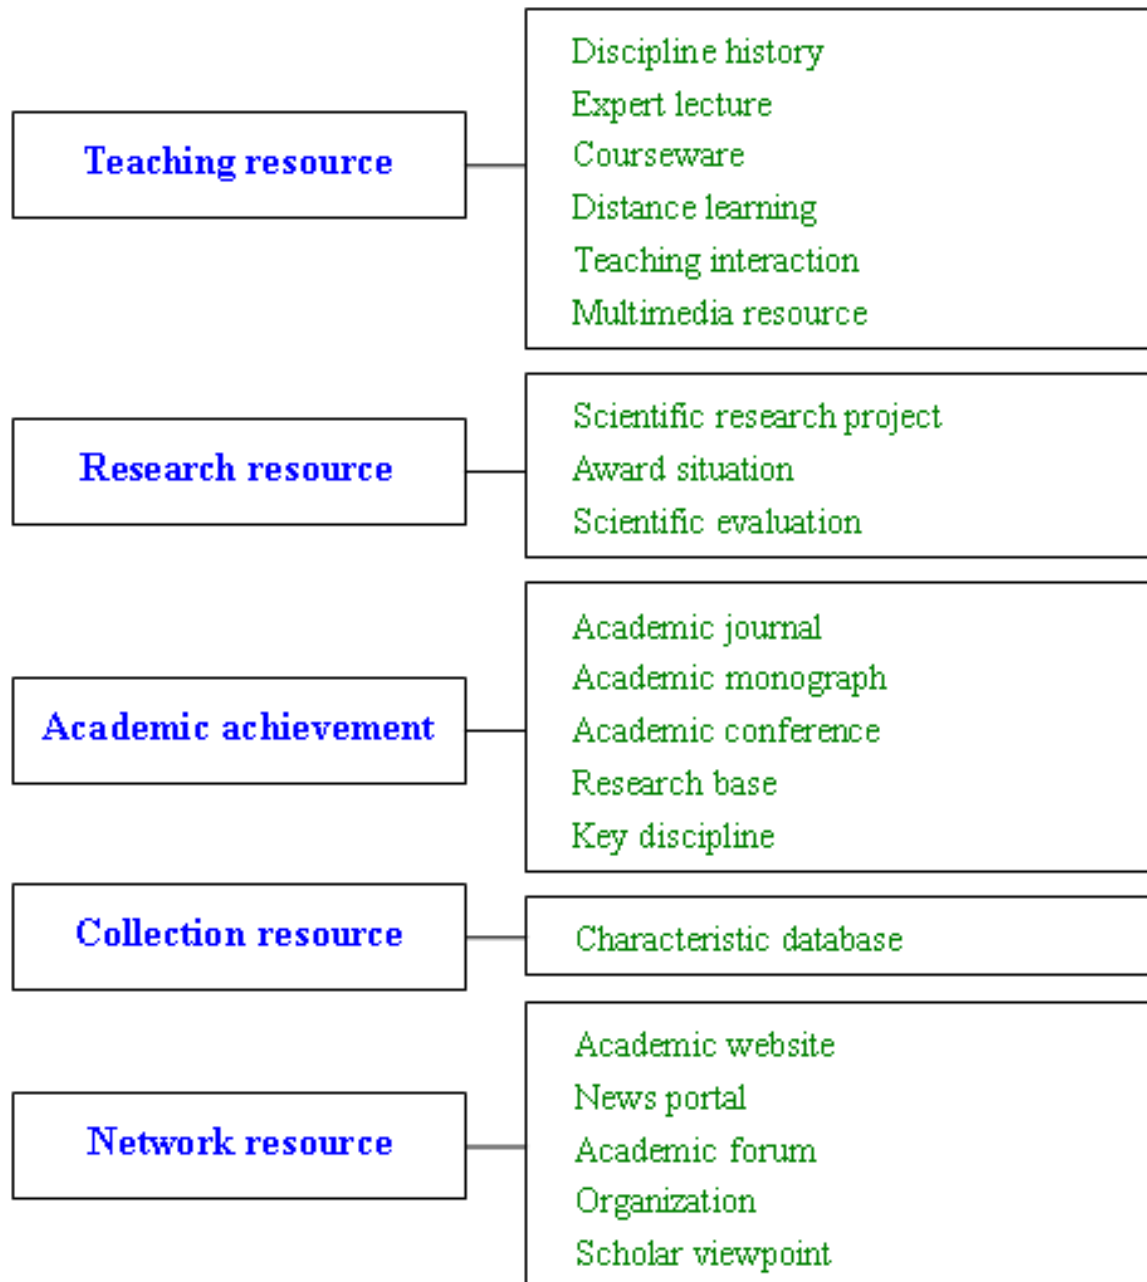

Technical support

- System development
- Integrated standard
- Data collection and harvesting
- Data audit and storage
- Data processing and editing
- Data organization and release

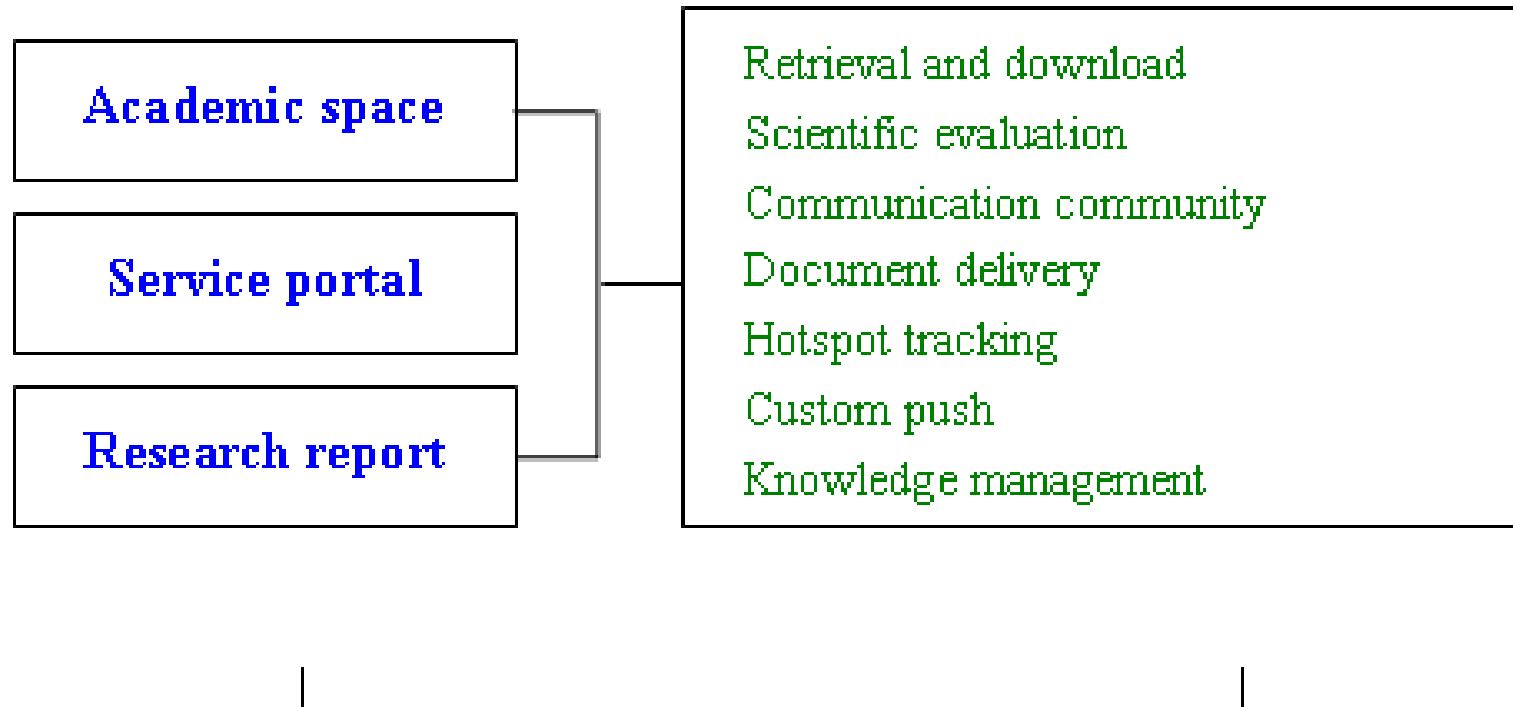

Knowledge organization system

Fram

nal

Knowledge service system

全省机构知识库联盟建设的研究内容：

Research Contents of the construction of the university institutional repository alliance across the Province

- 探索建设模式
- 规范技术标准
- 设计服务平台
- 拓展服务空间
- Explore construction model
- Standardize technical standards
- Design service platform
- Expand service space

跨境机构知识库联盟建设的研究内容：

Research contents of the construction of the university institutional repository alliance crossing border

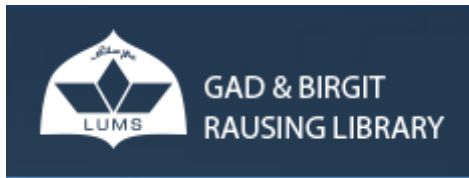

- 优化用户界面
- 服务教育领域
- 服务经济领域
- 拓展辐射范围
- Optimize user interface
- Serve education
- Serve economy
- Expand radiation range

创新点 Innovations

- 提出云南省高校机构知识库的建设方案
- 探索面向南亚东南亚开放的高校机构知识库联盟建设路径
- Put forward the construction scheme of the university institutional repository in Yunnan Province
- Explore the construction path of the university institutional repository alliance for South Asia and Southeast Asia

Thanks for listening.
